Easy Mobile Access

# DOM Tapkey

Your smartphone is the key

Are you ready for the revolutionary way to lock and unlock your doors? For homeowners and small business. Create smartphone keys for yourself, family members, guests, and your employees. If someone loses their phone or transponder, simply revoke the access for this user in the app and the security of your home is maintained. You're in control, even when you are not at home.

## ONE KEY - MULTIPLE FUNCTIONALITIES

DOM Tapkey is more than just a digital door opener: The Tapkey App is also a smart management tool that allows you to program transponders, send authorizations to other smartphone users, authorise other administrators and receive event notifications. In short, multiple functionalities incorporated into a single system!

## Secure and easy

### QUICK AND EASY SETUP

Install the digital devices in the door, download the app and start adding your devices. That's it!

### SECURE SMARTPHONE APP

This easy-to-use app for smartphones with Android or iOS lets you manage your access and security. You can create smartphone keys, manage authorisations and view events.

### MAXIMUM SECURITY

We believe that everyone and everything of value should be kept secure with no exceptions. That's why all the digital cylinder locks are next level, secure and powerfully encrypted.

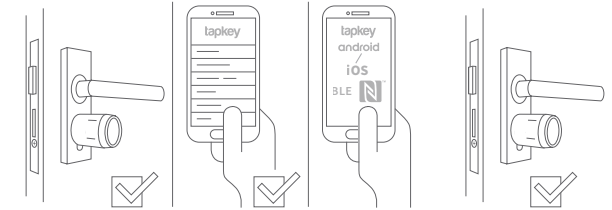

### CARE & SECURITY

DOM Tapkey provides a wide range of digital cylinder and digital handle variants for your doors. We even developed anti-panic applications for emergency exits and solutions for self-closing doors.

### IN CONTROL

By linking access rights to a Google or Apple ID, permissions can be easily revoked via internet, e.g. In case your smartphone is lost or stolen.

## Installing is easy as 1-2-3:

## Examples of use
