

Combination Locks

C4S

RONIS

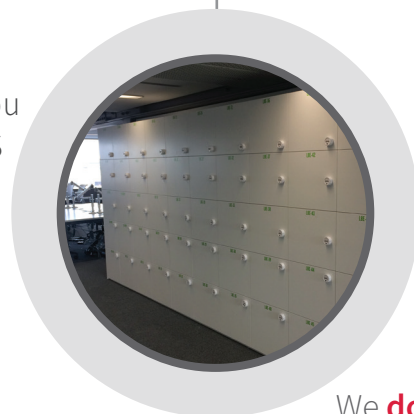

Noire
17
Black

The C4S is the ideal solution for schools and colleges. Its easy installation ensures large numbers can be fitted on site quickly and efficiently. Its solid design makes it durable and long lasting, while the combination lock eliminates the need for keys making it cost effective too. Forgotten codes can be retrieved quickly thanks to our patented detector plate.

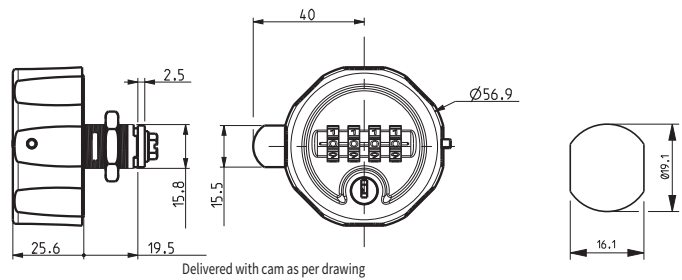

Whether staff want to keep valuables safe or you simply want to provide more storage, the C4S combination lock is the perfect product. With up to 10,000 possible combinations and its sleek, simple design, the C4S can accommodate any size business whatever your needs.
