

# DOM Service Pen

## USE AND APPLICATION

- Lubrication of mechanical locking cylinders and mortise locks
- Replacement for lubricants with MoS<sub>2</sub> or graphite
- Lubrication-, Maintenance and repair work in the automotive sector, trade, commerce and industry
- Cleaning and dry lubrication of mechanical components, bushes and guides

## TECHNICAL DATA

Temperature range	-50° C to +130° C	Flash point	145° C
Shape	fluid	Viscosity @ 40° C	17,2 mm <sup>2</sup> /s
Colour	Yellow	Durability	Expiry date free in the original packaging

## ADVANTAGES AND TECHNOLOGY

- Very good lubrication
- Pressure-resistant
- Wear-reducing
- Water resistant
- No labelling according to GHS
- VOC-free
- Homogeneous and stable formulation
- Compatible with non-ferrous metal

## SALES ARGUMENTS

- The stainless steel tip ensures that the oil is applied precisely and cleanly - even in hard-to-reach places
- Precise dosing possible
- Easy and clean to use
- Competitive purchasing conditions
- Practical blister packaging
