

EVOLUTION OF YOUR INSTALLATIONS

Depending on how your products, production and regulations evolve, we can offer you:

- Regulatory upgrades to your installations,
- On-site airflow and mechanical assessments,
- Test centre trials, laboratory analysis,
- ATEX compliance,
- Adaptation of the installation to changes in your products.

KEY MATERIALS AND COMPONENTS

- Available as standard or bespoke,
- Tested in our workshops (dimensional control, performance measurement, etc.),
- Options for specific applications,
- Materials designed and manufactured in France.

Customer Service

NEU-JKF Process Customer Service will support you throughout the life of your equipment and installations.

Whether it's a question of improving, repairing or replacing, our Customer Service has the expertise and is committed to providing manufacturers with the optimum solution in terms of time, efficiency and price.
